207 1,402,000 in 1967 (1969:782) and television sets, from
511 16,000 in 1963 to 164,000 in 1967 (1969:784). Figures for Sanlei indicate the village has shared this growth pattern. The number of radios increased from less than a dozen in 1953 to 41 in 1966. Two out of every three households now have a radio and since radios are played loudly, the village is rarely silent during the day or evening. Two television sets were installed in 1965. The one at the village store faces the street so that a group of villagers can watch the programs.

40 Other items may also indicate both the level of
412 prosperity and the kind of economic activities. Among the
493 409 people (66 households) there are 5 motorcycles, 69
511 bicycles, 30 sewing machines, 55 clocks, 37 electric fans, and 15 electric rice steamers. Farming equipment includes 9 threshing machines, 18 plows, 7 winnowers, 39 insecticide sprayers, 8 hand harrows, 7 foot harrows, and 161 hoes. Since almost everyone is a part-time farmer, there are only about five households in the village without a hoe although a hoe is the only piece of farm equipment
426 owned in several households. Borrowing tools from relatives, friends, and sworn brothers is a regular custom.

511 Every household appears overcrowded with furniture,
252 tables, benches, chairs, cabinets, etc. Beds usually con-
513 sist of a straw mat or a tatami (hard thin straw mattress) on a wooden platform. Some beds are quite large; occasionally, a single bed may exceed 8' by 10'.
